Introducing the **new** **FlatLOK™**

- FlatLOK is a multi-purpose structural wood screw that can be used for fastening multi-ply LVL and girder trusses. The flat head allows for easy finishing including drywall or trim.
- FlatLOK is approved for single-sided installation making the job easier to complete both at ground level or for elevated applications
- The FlatLOK wood screw features a TORX® ttap® drive system that maximizes bit fit, reducing the potential for stripping.
- The stability button allows for maximum penetration into the fastener and a wobble-free drive.
- A free TORX ttap bit is included in every box.
